

MHGDC Member and Guest Policies

This is a reminder of club policy regarding members or guests attending our training events and will be sent to all members of the Missouri Headwaters Gun Dog Club. The MHGDC has negotiated a special use permit to use specific Fish, Wildlife and Parks managed properties. This permit is available on our web page for your review.

Fish, Wildlife and Parks has posted regulations on the training grounds, which prohibit individuals from discharging firearms except during hunting season. MHGDC's special use permit allows shooting during training sessions and only club members may discharge firearms during our training sessions.

MHGDC has liability insurance that covers members only. We provide the accounting for the club, funding for the purchasing of training and trial birds, and pens to maintain birds. These reasons are why we require participants in our training sessions to be members of the club.

If guests or new potential members attend one of the MHGDC training events, please inform them of the club membership requirement. Have them complete our membership form and pay for membership before training or allowing them to be anything but an observer. This especially includes not shooting any guns.

All members and/or guests in attendance are required to wear hunters orange.

This document was revised and unanimously adopted by the full membership present at the MHGDC Annual Meeting held on January 28th, 2024.
